

Beginning on January 1st, 2011 and in conjunction with the State recycling law, we will be able to collect TV's and "other electronics" (DVD players, CD players, radios, stereos and cell phones) as part of this recycling program. These items will be recycled through our partnership with Waste Management's "WM Recycle America e-Cycling" program.

We will continue to recycle computers and computer peripherals through Dell's "Reconnect" Program.

The nearest Goodwill Stores are on Route 206 in Bordentown and on Route 130 in Willingboro
