Press Release 5/26/22

- COVID COMMUNITY IMPACT** - On May 5, 2022, the Burlington County Health Department released its final municipal level daily case counts. With the increased use of home testing resulting in many cases going unreported, coupled with high vaccination rates and more treatment options available for those who become infected, it was determined that daily case and fatality counts are no longer the most pertinent indicators to measure the impact and trajectory of COVID-19 moving forward. The COVID-19 Community Impact Dashboard (<https://burlconj.maps.arcgis.com/apps/dashboards/16e1e482d1a446a3b4f73fee4592b430>) will continue to be updated once weekly (typically on Mondays) with municipality level data and case rates as well as other metrics to monitor local transmission and burden.

If you would like additional information on COVID-19, including county-wide totals for daily new cases from the New Jersey Department of Health (NJDOH), please visit <https://covid19.nj.gov/>. On behalf of BCHD, thank you for your continuous support, feedback, and commitment to public health.

Individuals can book their appointments on the NJVSS website or use the NJ COVID-19 Vaccine Appointment Finder to get an appointment at locations throughout New Jersey at <https://covid19.nj.gov/pages/finder>.

Effective 5/19/22 the CDC approved booster vaccination for 5 -11 year-olds.

4. **Water Service & Sewer Service Lines:** Recently we have received inquiries regarding who is responsible for the water service and sewer service lines from the main to the property line and into the building (residence/business). The entire service line, including valves and clean-outs is the responsibility of the home owner/business owner to the connection at the main line. Please check the condition of your service lines, clean-outs and valves as they all eventually need to be repaired or replaced. If your service lines date back prior to 1980, there is a good chance the piping needs to be repaired or replaced. Also, it is a good idea to check with your insurance company to determine coverage in the event of a leak or pipe failure. Most home owner insurances will provide additional insurance for coverage. You may contact the Water & Sewer Department for assistance in assessing your service lines (609) 499-2518.
