## Press Release 10/21/22

- 1. Florence Township Water and Sewer routinely monitors for the presence of federal and state regulated drinking water contaminants. New Jersey adopted a standard, or MCL, for PFOA in 2020 and monitoring began in 2021. The MCL for PFOA is 0.014 parts per billion (ppb) and is based on a running annual average (RAA), in which the four most recent quarters of monitoring data are averaged. On September 13, 2022, we received notice that the sample collected on August 24, 2022 showed that our system exceeds the PFOA MCL at TP001003. The RAA for PFOA based on samples collected over the last four quarters to be 0.015 ppb. After receiving notice, Florence Township immediately began testing our wells to locate the cause of the elevated PFOA results. We have identified the wells with the higher levels and will be taking them offline until corrective action is taken. Florence Township will consult with our water engineer to develop a corrective action plan. The wells that have been tested and are in compliance will continue to provide the main source of our drinking water. We will continue to test the wells to ensure the safety of our residents. We anticipate resolving the problem by October 2023. For more information, please contact David Lebak at (609)-499-2518.**
- 2. Florence Township and the Burlington County Health Department will host a Flu Vaccine Clinic on Thursday, October 27, 2022 from 3:00 p.m. - 5:00 p.m. at the Florence Township Municipal Building. 10. **Water Service Lines Letters: In July 2021, P.L.2021, Ch.183 (Law) was enacted, requiring all community water systems to replace lead service lines in their service area within 10 years. Under the law, Florence Township is required to notify customers, non-paying consumers, and any off-site owner of a property (e.g., landlord) when it is known or unknown, if they are served by a lead service line. A letter was sent out on 9/1/22 to those residents this new law may affect. Note that per C.58:12A-41, section 2, the definition of a lead service line now includes lead connectors (lead gooseneck, lead pigtail, or other lead fitting) and galvanized service lines. Our service line inventory is available at [www.florence-ni.gov](http://www.florence-ni.gov). A service line is a portion of pipe that connects the water main to the building inlet. In Florence Township, the service line is owned entirely by the property owner. The service line materials are [lead/galvanized/unknown]. Florence Township is developing a lead service line replacement program. If you are planning to replace your lead service line, contact us at (609) 499-2518 prior to replacement so that we can coordinate our efforts.**

11. **Recycling Center:** The recycling center hours are:  
Monday, Tuesday, Thursday & Friday from 11 a.m. to 5 p.m.  
Saturday from 9 a.m. to 3 p.m.
