7. Fire District

COOKING SAFETY:

Cooking fires are preventable and safety in the kitchen should never be overlooked. A moment for safety can avoid a disaster for your family. Always watch what you heat, have a safety perimeter around the stove, and keep the handles pointed inward away from the burners to prevent the pot or pan from accidentally being knocked over. Also, set a timer in case you become distracted and avoid multitasking. Focus on cooking and then enjoy time with your family.

Never put water on a grease fire, always have a lid for the pot or pan you are cooking with, never move a pot or pan which is on fire, and most importantly avoid panicking. Easier said than done, remain calm, take your time, have a plan, be safe, and avoid unsafe choices.

LITHIUM-ION BATTERY SAFETY:

Always make sure to properly charge your lithium-ion batteries with their approved charger and follow these safety tips below.

- Always make sure they comply with and meet the requirements of (UL) Underwriters laboratory.
- Always follow the manufacturer's instructions for charging and storage.
- Always plug the charger directly into an outlet (i.e., no extension cords).
- Always keep batteries at room temperature and avoid temperature extremes either hot or cold.
- Always charge and store your batteries from combustible materials (i.e., excessive papers, clothing, wood, etc.) or flammable liquids.

8. Florence Township Water and Sewer

The drinking water remains in compliance, and the running average (4 quarters of testing) for PFOA is under the NJDEP limits. We are still required, however, to send out a notification letter to the residents and businesses each quarter until our new PFOA treatment plant is constructed. Florence Township has consulted with our water engineer and the NJDEP to develop a corrective action plan, and the design for the plant is underway. We will continue to test the wells to ensure the safety of our residents. For more information, please contact David Lebak at (609)-499-2518.
