

FLORENCE TOWNSHIP ZONING BOARD

RESOLUTION NO. Z.B.-2022-04

Application ZB#2021-15

**RESOLUTION OF MEMORIALIZATION
APPLICATION OF
JOSEPH GALLINA
BLOCK 95, LOT 20
RA LOW DENSITY RESIDENTIAL ZONING DISTRICT
SIDE and REAR YARD SETBACK
IMPERVIOUS LOT COVERAGE VARIANCES
APPROVAL**

Decided:	December 6, 2021
Resolution Memorialized:	January 10, 2022

WHEREAS, Joseph Gallina has made application to the Florence Township Zoning Board of Adjustment seeking rear yard setback and impervious lot coverage variance to allow construction of a roof over an existing elevated concrete patio, and side and rear yard setback variances for a shed, all serving the single-family dwelling at a property located at 6 Pelle Court and known on the Official Tax Maps of the Township of Florence as Lot 20 of Block 95;

WHEREAS, the applicant is the owner of the subject property;

WHEREAS, upon a finding that the applicant had provided proper mailed and published notices of hearing and that jurisdiction was proper in the Board, it opened a hearing on the application at its December, 2021 regular meeting;

WHEREAS, the applicant appeared *pro se*, was sworn, and offered his testimony, in support of the application;

WHEREAS, the applicant's architect, Bennedetto Catarinicchia, AIA, was sworn, was accepted as an expert in the field of architecture, and offered his testimony in support of the application;

WHEREAS, the Board, based upon the recommendations of the Board Engineer, found the variance application sufficiently complete to be heard;

WHEREAS, the Florence Township Zoning Board of Adjustment has made the following findings of fact and conclusions of law:

Findings of fact:

1. The applicant is the owner of the subject property, and therefore has standing to bring this matter before the Board.
2. The applicant has provided proper mailed and published notices of hearing, and jurisdiction is proper in the Board.
3. Application has been made for rear yard setback and impervious lot coverage variance to allow construction of a roof over an existing elevated concrete patio, and side and rear yard setback variances for a shed, all serving the single-family dwelling at a property located at 6 Pelle Court and known on the Official Tax Maps of the Township of Florence as Lot 20 of Block 95.
4. The subject property lies in Florence Township's RA Low Density Residential Zone District
5. The applicant has submitted the following documents in support of its application:
 - a. A completed Township of Florence Land Development Application;
 - b. A completed Township of Florence Variance Application Checklist of Submission Requirements;
 - c. Proof that no taxes were due on the subject properties at the time of the application;
 - d. A survey of the subject property prepared by Henry V. Engel, III, PLS, and dated 02-02-1998, showing the property outbounds and existing improvements;
 - e. A plan entitled "Zoning Review for Gallina Residence" prepared by Benedetto Catarinicchia, AIA, showing plan views of the dwelling and proposed roof addition;
 - f. Zoning Officer's Certification;
 - g. An executed Escrow Agreement;

- h. Proper application and escrow fees as required by ordinance.
6. The Board's Engineer, Hugh J. Dougherty, P.E., C.M.E. of Pennoni Associates, Inc., Consulting Engineers, submitted a review letter dated November 23, 2021 commenting upon the application which is hereby incorporated into the record.
 7. The subject property is an existing conforming lot of 10,023 sq. ft. where an area of 10,000 sq. ft. is required.
 8. Existing lot coverage is 42%, maximum permitted lot coverage is 20% (plus 5% for accessory structures), and proposed lot coverage will be 42%.
 9. Approval of the proposed development would require a rear yard setback variance because 38 ft. is existing, 28.1 ft. is proposed, and 35 ft. is required.
 10. Side and rear yard setback variances are also requested for an existing +/- 120 sq. ft. shed which is only 4.4 ft. from the property sideline where a setback of 5 ft. is required, and only 2.2 ft. from the rear property line where a 5 ft. setback is required.
 11. The proposed development is otherwise consistent with applicable bulk standards.
 12. The applicant offered testimony that the concrete patio and shed were there when he purchased the property, are many nearby properties with similar amenities and intensities of development, that the proposed development will be consistent with the character of the neighborhood.
 13. Mr. Catarinicchia testified that there are no existing problems with runoff or drainage.
 14. The Board Engineer concurred with the applicant's characterization of surrounding properties, and testified that he does not perceive there to be issues with grading or runoff that would result from the proposed development in light of the elevations of neighboring properties and existing drainage patterns. Mr. Dougherty pointed out that he has concerns that in some instances stormwater mitigation measures should be installed when impervious cover limits are exceeded, but does not feel that this is such a case.
 15. The Board accepts the testimony of the applicant and the Board Engineer as credible and probative

16. No public comment was offered on the application.

Conclusions of Law:

The Board finds that the proposed bulk variances for front setback, side setback and impervious lot coverage can be approved pursuant to NJSA 40:55D-70(c)(2), because the benefits of the proposed improvements outweigh the detriments of these relatively minor deviations from strict application of ordinance standards. It would not be possible to provide amenities on this property that are consistent with the existing development of the neighborhood without relief from strict application of the applicable ordinance standards. Because the proposed improvements are typical of those found on similar nearby properties and this development will not create drainage issues, the Board does not perceive any substantial detriment to the public good or impairment to the zone plan which would flow from the proposed development. Therefore, the Board finds it appropriate, pursuant to NJSA 40:55D-70 (c)(2), and subject to appropriate conditions, to grant the requested bulk variances.

In addition to the conclusions set forth above, the applicant has fulfilled the procedural requirements for the proposed development. Therefore, the requested bulk variances should be granted.

NOW, THEREFORE, BE IT RESOLVED by the Florence Township Zoning Board of Adjustment in the County of Burlington and State of New Jersey that the application of Joseph Gallina seeking rear yard setback and impervious lot coverage variance to allow construction of a roof over an existing elevated concrete patio, and side and rear yard setback variances for a shed, all serving the single-family dwelling at a property located at 6 Pelle Court and known on the Official Tax Maps of the Township of Florence as Lot 20 of Block 95, be and hereby is, **GRANTED**, subject to the following conditions:

1. The Board has relied upon the testimony of the witness and factual findings discussed in the body of this Resolution, and such testimony and findings are incorporated as conditions of this approval as though set forth at length herein.
2. No additional stormwater shall be directed onto adjoining properties as a result of the new development.
3. The subject property shall only be used as a single-family residence.

4. All taxes and escrow fees for professional review must be paid in full.
5. Compliance with all federal, state, county and local laws, rules, regulations and any other governmental approvals which may be required in implementation of this development, including but not limited to: Florence Township Construction Office.
6. If another governmental agency grants a waiver or variance of a regulation, affecting this approval or the conditions attached to it, then this Board shall have the right to review that issue as it relates to this approval and these conditions and modify or amend the same.
7. The applicant shall pursue with good faith and due diligence any and all additional approvals as may be required and shall provide the Board with copies of all reports and approvals for same, including copies of any and all applications filed.
8. Publication of a brief notice of this decision in the official newspaper of the municipality within 10 days of the date hereof.

The conditions of this approval shall run with the land and be binding on all successors in interest, purchasers and assignees. In the event that the applicant does not perfect this approval within one year of the date hereof (or such extended date as may be provided by statute or Board action), this approval shall be void, unless, for good cause shown, the applicant seeks extension thereof.

MOTION TO APPROVE BULK VARIANCE:

Moved by : Mr. Haas
Seconded by : Mr. Cartier
In Favor : Mr. Haas, Mr. Cartier, Mr. Buddenbaum, Mr. Lutz, Mr. Puccio,
